Roentgen Diagnosis

Nervous System

	Pag.
Asymptomatic intervertebral disc protrusions	9
Herniated disc in the cervical segment — gas myelography	28
Myelography of herniations of cervical discs co-existing with tumours	31
Clinical significance of discography	36
Tumeurs médullaires chez l'énfant	48
Anatomy of subarachnoid cisterns	61
Normal variations in position of optic recess	72
Encephalographic changes in the size of subarachnoid spaces	81
Cisterno-encephalographische Technik	87
Subdurale Luft bei Encephalographie	92
Value of examination of the subarachnoid space	99
Encephalography (contribution to discussion)	109
Significance of digital impressions in children's skulls	112
Radiographie segmentaire du conduit auditif interne dans les neurinomes	130
Anterior choroidal artery	143
Angiography and pneumography of slightly space-occupying supratentorial tumours	158
Radiologic diagnosis of intraventricular meningeomas	171
Vertebral angiography in supratentorial expansive processes	178
Vertebral angiography in differentiation between stenosis of the aqueduct and cerebellar tumour	186
Superficial veins in cases of intracranial expanding processes	195
Phlebography in supratentorial tumours	203
Tentorial herniations. Anatomy	215
» » Pneumography.	224
» » Angiography	232
Clinico-pathological aspects of pressure changes at the tentorium	242
Brain stem haemorrhages in expanding supratentorial conditions	250
Vertebral angiography	257
Biplane stereoscopic cerebral angiography	262
Angiographie cérébrale simultanée totale par injection intraveineuse	273
Utilisation de l'angiographie cérébrale totale simultanée chez l'enfant	279
Arteriography (contribution to discussion)	283
Rapid serial angiography	285
Diagnostischer Wert einer funktionellen Serienangiographie	299
Cerebral cine-angiography with image intensifier	310
Cerebral serial angiography on 70 mm film size	315
Subarachnoid haemorrhage	321
Clinical and radiologic evaluation of spontaneous subarachnoid haemorrhage	326
Angiography after surgery of intracranial arterial aneurysms	333
Atrophy of brain stem after Thorotrast injection into vertebral artery	342
Comparison between diodonum and sodium acetrizoate. Effects on blood-brain barrier	346
Spasmus der A. carotis interna	351
Série-angiographie de la dynamique circulatoire du cerveau	357
Arteries of the brain — anatomy	364
Angiographic differentiation between acute and chronic subdural and extradural haematomas	371
Thrombosis of middle cerebral artery	379
Angiographische Befunde bei cerebralen Gefässerkrankungen und ihre Beziehungen zu den klinischen Syndromen	381
Roentgenologic contribution to stereotaxy	390
Cystic brain tumours. Diagnosis and treatment by stereo-encephalotomy	407
Radioactive isotopes in localisation of brain tumours	415
Scanning of positron-emitting isotopes	425
Angiographie cérébrale au cours des hémiplégies cérébrales infantiles	456
Cerebral angiography in acute brain injuries	466
Angiographie während Röntgenbestrahlung von Hirngeschwülsten	469
Encephalography of sellar and parasellar tumours	474
Transtentorial herniation of brain — angiography	480
Temporal horn and changes associated with non-expanding lesions	703

Digestive Tract

	Pag.
Double contrast method for examination of esophageal strictures	499
Spontaneous regression of polyps of colon in children	507
Malignant lymphoma of gastrointestinal tract	523
Esophageal moniliasis	571
Meconium peritonitis	650
Cholecystography with sodium salt of iopanoic acid	719
Cholegraphy of cystic duct obstruction	723

Heart and Vessels (incl. lymphatic vessels) Pag.

Anterior choroidal artery 143
Angiography and pneumography of slightly space-occupying supratentorial tumours 158
Vertebral angiography in supratentorial expansive processes 178
Vertebral angiography in differentiation between stenosis of the aqueduct and cerebellar tumour 186
Superficial veins in intracranial expanding processes 195
Phlebography in supratentorial tumours . 203
Angiography of tentorial herniations . . 232
Vertebral angiography 257
Biplane stereoscopic cerebral angiography 262
Angiographie cérébrale simultanée totale par injection intraveineuse 273
Utilisation de l'angiographie cérébrale totale simultanée chez l'enfant 279
Arteriography 283
Rapid serial angiography 285
Diagnostischer Wert einer funktionellen Serienangiographie 299
Cerebral cine-angiography with image intensifier 310
Cerebral serial angiography on 70 mm film size 315
Angiography after surgery of intracranial arterial aneurysms 333
Spasmus der A. carotis interna 351
Série-angiographie de la dynamique circulatoire du cerveau 357
Angiographic differentiation between acute and chronic subdural and extradural haematomas 371
Thrombosis of middle cerebral artery . . 379
Angiographische Befunde bei cerebralen Gefässerkrankungen und ihre Beziehungen zu den klinischen Syndromen . 381
Angiographie cérébrale au cours des hémiplégie cérébrale infantiles 456
Cerebral angiography in acute brain injuries 466
Angiographie während Röntgenbestrahlung von Hirngeschwülsten 469
Transtentorial herniation of brain — angiography 480
Venous communication between cardiac veins and large venous trunks of mediastinum 518
Arterial supply to head of femur . . . 533
Phlebography of lower limb 603

Lungs, Pleura, Mediastinum and Chest Walls

Cesium chloride in contrast radiography 635
Electric pneumograph 646

Bones and Joints

Asymptomatic intervertebral disc protrusions 9
Herniated disc in the cervical segment — gas myelography 28
Myelography of herniations of cervical discs co-existing with tumours 31
Clinical significance of discography . . . 36
Congenital spinal deformities 38
Dynamics of the spine 55
Significance of digital impressions in children's skulls 112
Ableitung von Entwicklungsvorgängen aus dem Röntgenbild des Schädels . . 123
Radiographie segmentaire du conduit auditif interne dans les neurinomes 130
Bone, joint and soft tissue changes following paraplegia 435
Arterial supply to head of femur . . . 533
Generalized osteosclerosis in urticaria pigmentosa 575

Ear, Nose and Throat

Radiologic investigation of pharyngeal and laryngeal palsy 446

Uro-Genital System

Perjodal H viscous — water-soluble contrast medium containing dextran . . . 587
Cesium chloride in contrast radiography . 635
Size of normal kidneys 640

Radiotherapy

Angiographie während Röntgenbestrahlung von Hirngeschwülsten 469
Malignant melanoma with special reference to the possible effect of radiotherapy . 547
Roentgen treatment of pituitary gland according to pendulum principle 668
Eosinophilic granuloma of pelvis in children 731
Cytologic studies of nipple discharge . . 753

Radioactive Isotopes

Radioactive isotopes in localisation of brain tumours 415
Scanning of positron-emitting isotopes in diagnosis of intracranial and other lesions 425

Radiophysics

Radiation dosimetry using alkali halide crystals and the absorption of betatron Bremsstrahlung in water and bone . . 563
Radiation doses to patients and personnel in diagnostic work 680
Measurements on scattered radiation from roentgen diagnostic beams 690

Pag.

Calibration of the portable Swedish free-air chamber equipment at the U. S. National Bureau of Standards 741
Intercomparison of the roentgen standards of Great Britain and U. S. A. . . 747

Radiobiology

Quantum biology during last decade . . 595
Cell division and nucleic acid synthesis in the regenerating liver of rat 655

Technique

Roentgen Examination

Cisterno-encephalographische Technik . . 87
Vertebral angiography 257
Biplane stereoscopic cerebral angiography 262
Angiographie cérébrale simultanée totale par injection intraveineuse 273
Rapid cerebral angiography 285
Cerebral cine-angiography with image intensifier 310
Cerebral serial angiography on 70 mm film size 315
Roentgenologic contribution to stereotaxy 390
Double contrast method for examination of esophageal strictures 499
Thickness of layer in rectilinear tomography 511
Perjodal H viscous — water-soluble contrast medium containing dextran . . . 587
Phlebography of lower limb 603
Primary and secondary radiation and secondary screening in diagnostics up to 200 kV 621
Cesium chloride in contrast radiography . 635
Electric pneumograph 646

Pag.

Double-mirror for viewing stereoscopic roentgenograms 676

Radiotherapy

Roentgen treatment of pituitary gland according to pendulum principle . . . 668

Protection and Injuries

Radiation doses to patients and personnel in diagnostic work 680
Measurements of scattered radiation from roentgen diagnostic beams 690

Miscellaneous

Speech at the opening ceremony of the Fourth Symposium Neuroradiologicum 1

Book Reviews

Radium therapy. Its physical aspects and extensions with radioactive isotopes . . 570
Hämodynamik des Herzens im Röntgenbild 570
Lung function in coalworkers' pneumoconiosis 632
Electrokymography with special reference to valvular pulmonary and infundibular stenosis 633
Pediatric X-ray diagnosis 700
